

Vanpool Fare Schedule

The chart below lists the various fare costs for each vanpool rider, based on a traditional 8-hour day work week. As you can see, the more riders you have, the lower your fare. (Remember too, drivers can ride for free.) To calculate your riders' monthly costs, follow these steps:

1. Figure out your vanpool's total round trip miles, starting from where you plan to park the van to your work's final destination and then back again.
2. Count the number of riders in your vanpool group to determine what size of a passenger van you'll need.
3. On the left column of the chart, locate your round trip miles. Scan across to find your van size. Take the fixed rate cost and divide that by the number of riders to get your monthly fare. *(For example, at 30 round trip miles, the fixed rate on an Eight Passenger van is \$369.00. With seven riders, the monthly fare is \$52.71 per rider.)*

Other ways your fare can be affected

Your fare *may be even lower* if your employer subsidizes the cost of transportation; ask your company's transportation coordinator. Also, alternative work schedules such as 4/10s or 9/80s or 7 days a week, will affect the monthly rate. Before you purchase a pass, be sure it is valid toward vanpool fare payment. Call our Vanpool Formations Representative at **(206) 684-2043**, if you have questions.

Five-day Work Week Schedule*

Total Round Trip	8 Passenger Van			12 Passenger Van				15 Passenger Van			
	Fixed Rate	6 Riders	7 Riders	Fixed Rate	9 Riders	10 Riders	11 Riders	Fixed Rate	12 Riders	13 Riders	14 Riders
